This Service is charged on a per phone-line basis. If the Service is suspended in accordance with these terms and conditions, the Customer will be able to make emergency calls only. In respect of Talk Plus, unlimited free calls are conditional upon disconnecting before the 60th consecutive minute and re-dialling. The Customer accepts and acknowledges that (i) the Access Provider shall bar access to all carrier selection and carrier access codes on telephone lines that have Single Billing Service applied and (ii) override codes are not available for use by the Customer in conjunction with the Service (i.e. a Customer cannot access another operator's network in making calls through use of a prefix). The Customer accepts that BT shall have no liability for any losses or damages howsoever arising from non provision of the Service in the event that such restrictions are not accepted by the Customer.

3.2 Service Restrictions – Flat Rate Anytime

In the event that a Customer fails to use their allotted hours per calendar month they will not be carried over to the following or any subsequent month. If a Customer exceeds such allotted hours BT shall have the right forthwith to suspend the Service or terminate the Agreement and/or charge the Customer for any additional Internet access minutes at the prevailing rates for such Internet access minutes.

BT shall automatically disconnect Service after 5 consecutive hours.

There shall be an automatic timeout of the Service after 15 minutes of inactivity (or such other period as may be specified by BT from time to time on www.btireland.com).

3.3 Service Restrictions – Flat Rate Evenings and Weekends

If a Customer exceeds such allotted hours or uses Service during Peak hours BT shall charge the Customer per minute at the prevailing rates for such Internet access minutes.

All Customers will be temporarily disconnected at 7am and 7pm Monday – Friday. BT has no liability whatsoever for the consequences of any such disconnection.

There shall be an automatic timeout of the Service after 20 minutes of inactivity (or such other period as may be specified by BT from time to time on www.btireland.com).

3.4 Service Restrictions – Broadband

BT Ireland Consumer – Services and Charges

with In the event that the Customer breaches the BT Acceptable Use Policy then BT reserves the right to charge for excess usage, suspend and/or permanently disconnect the Customer. Monthly Download Usage reports are available per user on broadband.iol.ie/usage - Please note usage information is only available to 12 midnight of the previous day.

'Monthly Download Allowance' means the amount of download allowed for Broadband at no additional cost to the fixed monthly charges as specified in the Guide. In the event that the Customer exceeds their Monthly Download Allowance, BT reserves the right to charge the Customer for any such excess Download, and the Customer shall pay the charges applicable to such excess as specified in the Guide. Notwithstanding such termination any Customer of the Service who seeks to terminate shall be liable to pay for any excess in respect of their Monthly Download Allowance.

Broadband may be restricted to those customers whose telephone lines do not exceed more than 4.5 kilometres from the telephone exchange (or such area from time to time as is advised by BT) which the line is connected. The line must be an analogue direct exchange line, which terminates on a master socket forming part of the PTSP network. All of these factors along with the quality of the copper pair to and within the customer premises will be used to pre-qualify if a customer's line is capable of supporting the selected service and at any later time qualify or disqualify that same line for service. In such circumstances, where a line is disqualified post activation of service BT or the customer may cancel service without penalty.
