

BT Ireland: connecting and empowering your business

In a world where the business and technology landscapes are constantly changing, we're your trusted partner to a connected world.

We make it personal.

Tailoring a great experience for every individual, whether they're a customer or team member.

We make it secure.

Protecting your data however and wherever it's accessed.

We make it collaborative.

Helping everyone in your ecosystem communicate, from employees to customers, suppliers and partners.

What can BT Ireland do for me?

Every organisation is at a different stage of its digital transformation journey and no matter what type of support you need, BT Ireland can help you to achieve more effective ways of working.

Create a dynamic network for the future

It's vital your network evolves to meet the changing needs of your business, so you need a network to help you thrive now, and into the future.

To achieve this, we can:

- Provide a technology roadmap to meet your business needs.
- Create secure agile platforms to transform your complex infrastructure.
- Deliver the latest secure, optimised connectivity services using our powerful infrastructure.

Balance the risk and reward of the cloud

To make sure you can connect to the apps and data you need, no matter where you are, we can:

- Host and manage your data and applications.
- Provide high performance through one of our many strategic global data centres, including Dublin and Belfast.
- Deliver services to support your transition to the cloud.

Transform your customer experience

To help you build standout digital experiences and hold ever richer customer conversations, we can:

- Provide the technology and training to help you meet your customers' changing expectations.
- Improve your customer experience with effective cloud solutions.
- Upscale your contact centre capabilities, making your operation more flexible.

Create a productive digital workplace

It's important you power employee productivity and accelerate your digital transformation. To help you deliver a more connected workplace, without risk of disruption, we can:

- Migrate your communications to the cloud to create a productive digital workplace.
- Reduce your costs and improve your people's productivity.
- Provide you with the best professional messaging, video, calling and collaboration tools.

Make security integral to your business

Digital security isn't just about technology, it's also about partnerships, intelligence and expertise. To keep your organisation safe, we can:

- Help you plan and implement effective security strategies.
- Secure your business from network to cloud.
- Help you adapt to the changing threat landscape.

We can give your organisation the tools and solutions it needs to create a productive digital future.
